1 问题一的求解

作业 2-1: 利用 matlab 画出高阶拉盖尔 高斯光束和高阶厄米 高斯光束。

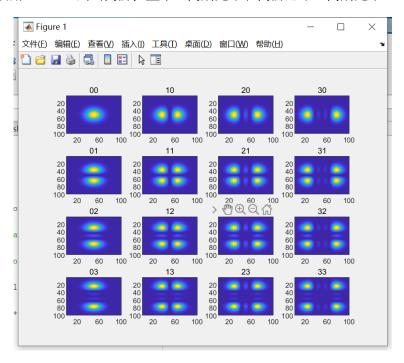

Figure 1: Caption

2 问题二的求解

作业 2-2: 根据高斯光束特性,利用 matlab 分别画出束腰半径为 1mm 的高斯光束在束腰处的二维和三维光强分布图。
